

## Wireless E-911 Services Board

Steve Marzolf, E-911 Coordinator  
[www.va911.org](http://www.va911.org)

---

---

---

---

---

---

---

---

## Board History

- ◆ Establish in 1998 to administer the Wireless E-911 Fund (\$0.75 surcharge)
- ◆ Reformed in 2000 with expanded membership, responsibility of landline enhanced 9-1-1 funding, and staff established as a Division in DTP
- ◆ *Code* establishes a deadline, July 2003 for landline E-911 deployment

---

---

---

---

---

---

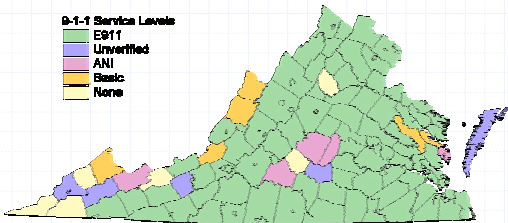

---

---

## Wireline E-911 Status

9-1-1 Service Levels  
E911  
Unverified  
ANI  
Basic  
None

---

---

---

---

---

---

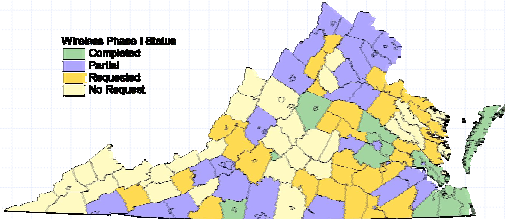

---

---

## Wireless Phase I Status

Wireless Phase I Status  
Completed  
Partial  
Requested  
No Request

---

---

---

---

---

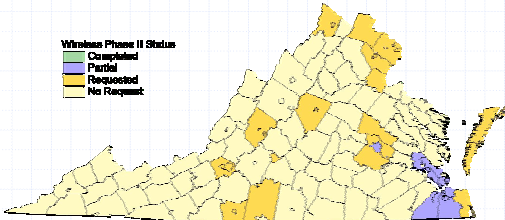

---

---

## Wireless Phase II Status

Wireless Phase II Status  
Completed  
Partial  
Requested  
No Request

---

---

---

---

---

---

---

## Wireless Phase II

- ◆ Wireless company must provide longitude and latitude of the caller
- ◆ Accuracy requirement is 50 – 300 meters, but actual is much better
- ◆ High quality map needed in the 9-1-1 center
- ◆ Ability to share map data is essential due to regional nature of wireless

---

---

---

---

---

---

---

## Wireless Board Action

- ◆ Board has committed to providing:
  - Digital Photography
  - Street Centerline
  - Addressing Data
- ◆ VGIN proposed statewide approach to photography and the Board funded it
- ◆ VGIN is working on a recommendation for other two components
